Why choose **CS** ?

CS Labels was established in 1976 and is proud to still be wholly owned and family run. With the same caring ethics, the business has grown into the largest digital label printer and flexible pouch manufacturer to use Xeikon technology in Europe.

We're proud of our staff and our relationships with our customers who continue to use our award-winning labels to translate their brand on all sorts of products, and across every industry imaginable.

- Award Winning Business
- Continued Research & Development
- Zero-to-landfill Company
- Centrally Located
- Leading Xeikon UK Digital Print Specialist

Our experience means that our focus is always to deliver the best service, at the best quality, with the most added-value for our customers.

With CS, you can experience digitally manufactured labels and flexible pouches at their very best!

With an established innovation programme, our portfolio of available products and processes continues to evolve.

Exceptional Labels

Our labels are printed to an exceptionally high quality (1200DPI). Using Xeikon digital technology we produce crisp registration, smooth tones and extended CMYK colour to deliver metallic effects utilising Color-Logic technology.

We manufacture labels in all shapes and sizes on various material types which can be die or laser cut. Our in-house technology solutions are equipped to execute the most intricate designs, and a wide variety of embellishments including foiling, embossing, de-bossing and tactile varnishes with a variety of finishes.

The experience, understanding, and expertise we have in label manufacturing is unparalleled. We know how to deliver according to our customers' specifications, often exceeding expectations.

Materials

- Polypropylene – White/Clear/Silver
- Polyethylene – White/Clear
- Paper – Semi-gloss/Textured/Matt
- Adhesive – Multiple Options

Perfect for safety information
Keep your product compliant.

Support that's Invaluable

We have an in-house Studio team to manage customer artwork files. The Studio is equipped with the latest technology and software enabling us to offer services from concept through to delivery.

All artwork goes through our automated preflight system to speed up turnaround times. Files are checked for image quality, colour translation (RGB), font problems as well as general quality checks.

Customers are notified within minutes of submission if additional work is required. Generic fixes are implemented including adding bleed, flattening transparencies, converting fonts, and checking spot colour integrity to name a few.

Our work-flow automatically creates proofs showing additional embellishments such as foiling, embossing and cutter lines. Proofs are automatically created to be sent for approval which allows us to communicate the final artwork more efficiently.

- Automated artwork proofing
- Skilled in-house specialists
- Proof of concept service

Our sales team provide consultative customer support striving to consistently deliver the best service possible.

We work closely with our customers to achieve the best quality giving added value to our services on offer.

Not sure how to transform your design and artwork into the best presented pouch or label possible? Speak to one of our team, we'll guide you each step of the way!

Colour that's Logical

Color-Logic is a world-leading special effect printing technique used by CS Labels to achieve metallic colour shades. Color-Logic is also the world's first colour communication system for printing onto foil and reflective substrates using CMYK + White.

With over 260 bright and vibrant shades in the Color-Logic library, creating a digital label that stands out is now so much easier and is a fraction of the cost of traditional embellishment foiling.

As CS Labels was one of the first companies to pioneer this software over 10 years ago, our expertise in achieving eye-catching results means that we often exceed our customers expectations with regards to delivery on metallic colour requirements.

- Over 260 metallic shades
- Huge cost saving compared to foil
- Compatible with every shape and size

Love for our Planet

We love our planet, that's why it's our policy to ensure our products are produced within an environmentally sound framework. CS Labels commits to the protection of the environment, including prevention of pollution, use of sustainable resources where possible, whilst actively seeking to reduce our carbon footprint.

To ensure that we fulfil our compliance obligations consistently and efficiently we operate an Environmental Management System in line with ISO14001-2015 Standard requirements.

Did you know?

That one of the major advantages to digital is the reduced requirement for setup and the ability to print multiple sorts on a single run. This means less waste and the ability to provide the quantities you need.

We're constantly looking at ways to offer new, more sustainable products. For regular updates, follow us on Twitter [@CSPouches](#) or [@CSLabels](#)

Environmental Policy

- Ensure that our staff are aware and act in accordance with this policy and in compliance with our Environmental Management System and ensure it is appropriate to the purpose and context of the organisation, including the nature, scale and environmental impacts of its activities, products and services.
- Continually strive to improve and enhance our environmental performance and prevent pollution.
- Set and monitor environmental objectives and targets ensuring that they are compatible with the strategic direction of the organisation.
- Reduce waste and the consumption of resources (materials, fuel and energy) in line with productivity and ensure unavoidable waste is recycled, reused or recovered, where possible, or disposed of responsibly.
- Direct and support a sense of responsibility for the environment amongst our staff.
- Monitor and where possible to reduce the impact of our activities on the local and general environment.
- Ensure compliance with relevant Legislation and Regulations.
- Review the requirements of the environmental management system ensuring that it is effectively integrated within the business processes.
- Ensure that the necessary resources are available for the environment management system to operate successfully.

“We’ve been so pleased with the ease of working with CS Labels. They’ve taken the design concept and produced retail-ready packaging that looks amazing!”

Jade Hodgkinson | Marketing Director
Nutreelife

“We wanted something different, something to make the product stand out. Not only are pouches lighter, they also offer the opportunity to add more information on the packaging compared to the other options.”

Allan Hoy | Founder
Leisurechem

“Out of the 100’s of sample packs we saw from potential suppliers, CS Labels had the edge on finish and quality”

James Batty | Founder
Auto Finesse

“The quality of our packaging is amazing and we have received 100% positive feedback on it. We were overwhelmed with excitement when we received the final products. As a start-up company, we’d highly recommend CS!”

Zoe Mitchell | Founder
Herbal Culture
